Von Meg-Giry

Kapitel 4: Lost in space

Lost in space

Darkness all around me
I'm alone in space

I can see millions of stars
But they are all too far,
To lighten my darkness
And the zero gravity of space
Can't make my heart any lighter

How can I find a way back home,
When I never had a home?
There's no way,
Neither forward nor backward
I'm lost
